

Netgate 1100

The Netgate® 1100 security gateway appliance with pfSense® Plus software is the ideal microdevice for the home and small office network. With a compact form factor, low power draw, and silent operation, it can run completely unnoticed on a desktop or wall. Featuring a Dual-core ARM Cortex-A53 1.2 GHz CPU, (3) 1 GbE ports, and 1 GB of DDR4 RAM, the Netgate 1100 enables up to 927 Mbps routing and 607 Mbps of firewall throughput.
